

I'm requesting that KLOVE not be taken off the air or the format changed. KLOVE is the primary radio station I listen to at home and in my car. As a Christian I find the music to be very uplifting and I never have to change the station when my grandchildren are with me due to bad language or unsavory lyrics; I also like the fact that it is commercial free. If KLOVE is changed in any way then I will no longer listen to the radio at home or in my car but play CD's of Christian artists instead. There should be a group of stations that only play uplifting music and where the DJ's aren't vulgar or too silly. A station that can be of encouragement to the young people in our community who may not enjoy the popular music, is why I think KLOVE should stay on the air. Thank you for receiving my comments.
